Summary of Research and Teaching

I have authored and published peer-reviewed papers on longitudinal radioulnar dissociation, community-acquired MRSA in orthopaedics, and a double dislocation of the thumb metacarpal. I also authored a chapter on The Interosseous Ligament and Essex-Lopresti Injury.

I have delivered lectures on local and national levels to residents, interns, and hand therapists on various hand topics. I have given lectures at the annual AOAO meeting on the anatomy of the DRUJ. I have given lectures on creating PowerPoint presentations at the annual ASSH meetings, and have been recently named faculty. As an undergraduate, I was appointed teaching assistant for the Department of Chemistry, where I taught honors advanced undergraduate laboratory sections for two semesters.
